AUSTROFLAMM

www.austroflamm.com

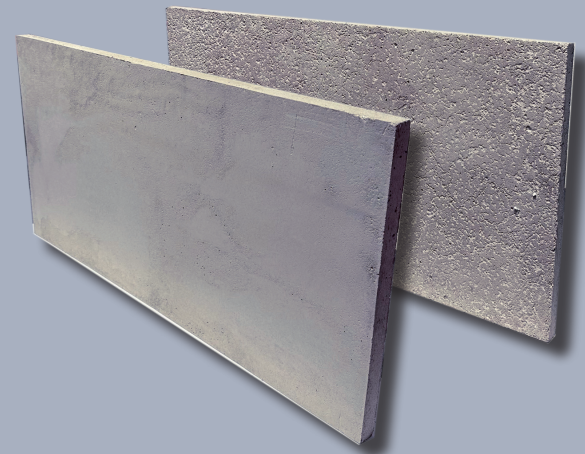

Using this you'll "easily" score!

Developed by the Austrian stove specialists Austroflamm specially for the popular trends of the day - **SIMPLICITY, QUICKNESS AND EFFICIENCY** - this hydraulically-bonded fireplace construction board makes the creation of warm surfaces for modern fireplace systems EASY.

Free from asbestos and calcium silicate fibres, this new development is the first choice for environmental and health considerations and represents a great step forward into the future!

THE BENEFITS:

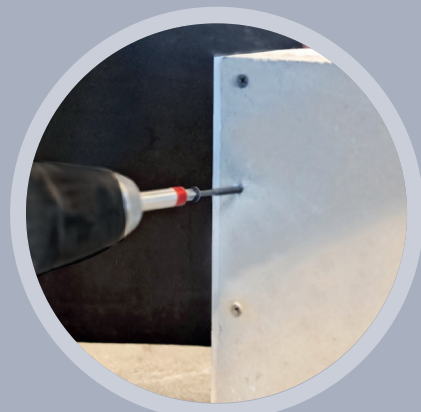

- **LARGE SIZED** 1000x500x35mm
- **CUT** with circular hand saw or keyhole saw
- **SET** with all commercially available adhesive mortars and Universal 500
- **SCREWABLE** on edges and front facings

⇒ CUT WITH CIRCULAR HAND SAW

⇒ CUTTING WITH KEYHOLE SAW

⇒ SCREWING UP

TECHNICAL DATA: EASY FIREPLACE CONSTRUCTION BOARD

Size	1000 x 500 mm
Thickness	35 mm
Bulk density	1.4 kg/dm ³
Compressive strength at 110 °C •	approx. 10 N/mm ²
Thermal conductivity	approx. 0.55 - 0.6 W/mk at 180 °C
Spec. heat capacity	900 J/kgK
Temperature-resistant up to	350 °C
Processing	sawing, milling, drilling, breaking, screw-on
Application	easy creation of warm surfaces on fireplaces

ORDER INFORMATION:

EASY FIREPLACE CONSTRUCTION BOARD
Item number: 715 200, 1 pallet = 18 pieces
