

as per Regulation (EC) / 2015/1186

Model Mo Duo Cook
Manufacturer Austroflamm GmbH
Austroflamm-Platz 1
A-4631 Krenglbach

Energy efficiency class	under examination
Direct heat output [kW]	under examination
Energy efficiency index	under examination
Efficiency / thermal efficiency / fuel energy efficiency at nominal heat efficiency [%]	under examination

Note

Fire protection- and safety distances from flammable building materials must be complied with! Sufficient combustion air must always be capable of flowing into the fireplace. Air extraction systems may disrupt the supply of combustion air!
