Overview

FERDINAND HUEMER,
A VERSATILE PIONEER.

Fire is the source of all things.

THE SUCCESS STORY BEGAN BACK IN 1983 when Ferdinand Huemer, the company founder, hit on the idea of combining efficient wood-burning stoves with innovative design.

Then in 1995, the easy-to-use pellet stove was born. Fuelled by creativity, a zest for action, courage and determination, he transformed his company into a permanent fixture on the wood burner market in record time!

AUSTROFLAMM IS A PIONEER in the use of ceramics and in the development and production of new types

of storage materials like keramott, HMS (Heat Memory System) and XTRA storage heat. Our patented technologies have been instrumental in significantly reducing the emissions generated by solid fuels.

ALWAYS ONE STEP AHEAD OF THE ZEITGEIST, we have developed multifunctional cooking and baking appliances. Innovative tools such as the air distribution model and the PelletControl app (intuitive control via mobile phone) are the perfect complement when it comes to using our resources sustainably!

*Thinking and acting sustainably, team spirit and a culture of partnership
have been the hallmarks of our company for 40 years.*

CLOU COMPACT PELLET

→ *pellets*

WE HAVE THE “*hotline*”

PELLET STOVES AND HYBRID STOVES

TO INDEPENDENCE

MO DUO COOK

→ *wood & pellets*

Comfortable, intuitive to operate using the PelletControl App and environmentally friendly at the same time, pellet stoves offer the perfect alternative to conventional wood-burning stoves. Our pellet stoves are not only beautiful to look at: their inner values will also impress you. All Austroflamm pellet stoves are prepared for balanced flue operation as standard. Automatic self-cleaning cycles and particularly clean combustion with low ash production result in a minimal need for cleaning.

PELLET STOVES

EASY & SMART

THAT'S THE CLOU!

Our pellet stoves are also both
smart and gorgeous!

PELLETS

REAL FIRE

At the push of a button, our pellet stoves emit a pleasant warmth and display a unique and calm array of flames thanks to innovative Austroflam technology.

REAL PEACE

Thanks to ingenious technology, our pellet stoves do not require convection fans and are therefore particularly quiet during operation.

REAL CLEANLINESS

Our pellet stoves not only comply with the requirements of European regulations, their values remain comfortably within the standard limits to be met. Wood pellets have a minimal impact on the environment even during their production, and energy consumption is kept to a minimum. Cosy heat you can enjoy with a clear conscience.

GOOD COMBINED

JUST „DUO“ IT

OUR DUO MODELS

For the undecided, Austroflam has the perfect solution with its hybrid stoves.

MAKING 2 INTO 1!

Duo means these stoves can be fuelled with both firewood and wood pellets.

SIMPLY PRACTICAL

They combine the comfort and technological innovations of pellet stoves with the naturalness of a crackling stove fire.

Low-emission combustion, a renewable raw material and economic heating included.

CLOU DUO

→ TWO = ONE

You can heat this hybrid appliance with crackling firewood or quite easily with pellets. The automatic thermostat is brilliant and the time function really practical - you can also use them to start your Clou Duo when you're out and about.

The optional air distribution module (➊) allows you to conveniently heat adjoining rooms at the same time with the door closed.

WOOD & PELLETS

CLOU DUO

- wood/pellets hybrid stove
- rotary control unit
- timer
- room sensor
- stylish solid cast-iron doors

Mo Duo with steel cladding

MO DUO

WOOD & PELLETS A STRONG DUO!

Calling all the comfort-conscious and bon viveurs! Mo Duo fulfils all your heating desires at once. This hybrid appliance can be heated with pellets or firewood and thus combines the best of both worlds: the comfort of an automatic pellet fire with automatic thermostat or timer programming and the incomparable flame pattern of crackling firewood. Adjacent rooms can also be heated using the optional air distribution module (⊕).

MO DUO

- hybrid stove - wood/pellets
- automatic thermostat
- intuitive controls
- optional air distribution module

MO DUO COOK

- heat with wood or pellets
- cool COOK function
- independent & smart
- optional ceramic cladding
- optional Cook Railing

MO DUO COOK - OUR SECRET RECIPE

The new 3 in 1 hybrid stove is a real treat!
With our Mo Duo Cook, no kitchen stays cold.
Heat conventionally with wood or practically with pellets.
Use the fire not just for room heating,
but also for your favourite dishes - that's the
MOdern lifestyle, independence included!

With steel cladding
& ceramic back panel

MO DUO COOK

AR

Fig. left: Quadra Duo with stone cladding „velvet ivory“.

QUADRA DUO

SQUARE, PRACTICAL QUALITY HEATING!

The elegant blend of stone and steel panelling featuring a novel wooden handle make the Quadra Duo an innovative design object. You love the romantic crackling of logs but still appreciate the convenience and cleanliness of pellet firing - both are perfectly combined here. Options such as smart control or the air distribution module (⚙️) (allowing rooms to be heated at the same time) are a sound investment in conserving energy for the future! Now also available with an optional wooden base.

SCOTTY DUO

Fig. left: Scotty Duo with ceramic cladding „bright white“.

SCOTTY DUO

Whether you fire our Scotty Duo with logs or wood pellets is entirely up to you. Either way, Scotty Duo provides cosy warmth and an effective heat output. Equipped with state-of-the-art Austroflamm technology, heating becomes child's play. Whether by hand or conveniently controlled via the integrated WLAN module, Scotty Duo impresses with its efficiency and versatility. Featuring understated elegance and attractive details, Scotty Duo combines technological innovation with the source - the flame. Whether in dark anthracite or bright white ceramic cladding, or with steel cladding, our all-rounder Scotty Duo is guaranteed to be a (heart-)warming eye catcher in your home.

WOOD & PELLETS

CLOU

PELLET

CLOU PELLET

A TWIST OF A KNOB IS ALL YOU NEED

The completely new operating concept of the Clou Pellet is as unusual as its design: the automatic control is activated, the power setting selected and the stove switched off again by means of a rotary control. It really couldn't be simpler.

CLOU COMPACT PELLET

SMALL BUT AWESOME!

Boasting all the advantages of the Clou, but with more compact dimensions and a lower output, this is the Clou Compact Pellet. In other words, it also features the foolproof rotary control, housed in a stunning design.

CLOU COMPACT PELLET

ELLA

AR

Fig. left: Ella with ceramic cladding „dark anthracite“.

Our new pellet appliance has an all-around modern look with large fire viewing window in stylish steel- or ceramic cladding. Heating practically with low emissions (19 kg pellet hopper). Can be operated using the rotary controller or as an option via mobile phone, even en route... all quite easy!

Ella with steel cladding.

PELLARNO

A WIDE RANGE OF OPTIONS.

Pellarno offers you plenty of scope for adding a personal touch. Whether in Iron Grey or Titan, with side panels of steel or naturestone and stone top in Velvet Ivory, Marble Grey Clouds or soapstone – the wide range of finishes opens up numerous possibilities for tailoring the stove to reflect your own interior style.

Pellarno with „soapstone“ top and „titan“ steel cladding

PELLARNO'S FEATURES:

- Solid cast iron door
- Display and rotary control knob for simple operation
- Various cladding options in steel and natural stone
- High performance

Pellarno with „soapstone“ top and „cast iron grey“ steel cladding

PELLEA

PELLEA

GENTLE LINES, POWERFUL TECHNOLOGY.

With its gentle contours and generous, oval viewing window, Pellea exudes a distinct sense of calm and harmony. Available with side panels in Iron Grey and Titan, Pellea is the embodiment of both modern and snug design.

Pellea with
„titan” steel cladding

PELLEA'S ADVANTAGES:

- Solid cast iron door
- Display and rotary control knob for simple operation
- High performance

Fig. left: Pellea with steel cladding in the colour
„cast iron grey”

NEW

SERENITY AND ELEGANCE.

From modern new-builds to welcoming homes – Pellpuro with steel cladding will appeal to you through its timeless design, which complements a variety of interior styles. Its solid cast-iron door, durable materials and intuitive operation via a display and rotary control knob make it a trustworthy companion on chilly days.

PELLPURO

PELLPURO'S STRENGTHS:

- Solid cast-iron door
- Display and rotary control knob for simple operation
- Powerful performance

PELLPURO

Perry with „bright white“ ceramic cladding.

Sheer bliss is only a push of a button away: the display makes it possible.

Fig. right: Perry with „dark anthracite“ ceramic cladding

PERRY

Straightforward, stylish and elegant is how our Perry presents itself. The sophisticated ceramic cladding in bright white or dark anthracite gives the automated pellet stove that extra special touch. At the push of a button, Perry provides cosy warmth and fills the room with flickering fire. Equipped with our WLAN module, your smartphone becomes a remote control for your Perry. Whether you want to fill your home with cosy warmth while you are on the road, or set complete daily or weekly programmes, Perry and the pellet app make it possible. A smart heat dispenser for every day.

P E R R Y

Flue pipe
connection top

RUBY

AN ELEGANT UNDERSTATEMENT IN ITS MOST STUNNING FORM.

The sophisticated design details, from the elegant ceramic cladding to the smart wooden handle, are what make this pellet stove stand out. The imposing rounded cast-iron door creates a spectacular setting for the flames. Depending on individual circumstances, various flue pipe connection options (at the rear or at the top) and an air distribution module (☉) are available as accessories.

Optional and optimal!

MAKE IT EASY WITH PELLETS!

ACCESSORIES

PRETTY SMART!

Intuitive Control

PELLET CONTROL APP

SMART HEATING

Now you can enjoy a truly beautiful (pellet) fire at the touch of a button. Gently pressing the TOUCHDISPLAY is all it takes to start pellet delivery, and ignition is fully automatic as well. Alternatively, simply press the REMOTE CONTROL or the Pellet Control app on your smartphone (iOS or Android). This allows you to monitor and control your pellet stove from any location. So you can make sure that it is cosy and warm when you get home. Operation via display, remote control or app is foolproof and self-explanatory. Our Clou and Clou Compact pellet stoves probably offer the simplest operating concept of all with their innovative ROTARY CONTROLS.

MAIN SCREEN

The power can be regulated on the main screen. The desired room temperature is displayed in large format. The actual room temperature is shown in small letters beneath it.

TIMER

A timer can be set just as conveniently via PelletControl as on the display of our pellet stoves. This is an important addition, especially for our models with rotary control. You can set weekly and daily programmes using the “Timer” menu.

ADDITIONAL FUNCTIONS

- Activation of the ECO mode
- Changes to the restart and shutdown temperature
- Adjustment of the pellet quality from 1 to 3
- Change of date and time
- Statistics
- Service / maintenance information
- Error log

ACCESSORIES

HOT SPOT !

Premium

White

The sensor is available in a high-quality "Premium" and a subtle "White" version.

Smart Spot

WITH ROOM SENSOR - WARM WHEREVER IT'S COSY

All Austroflamm pellet stoves are equipped with a cable room sensor as standard. The optional SMART SPOT is a wireless room sensor based on Bluetooth technology, which allows you to measure the room temperature in the most convenient spot (within a range of 20 m). The minimalist, timeless design of the sensor is an elegant eye catcher, especially in the premium version.

TECHNICAL DATA

Installation: horizontal or vertical

Battery: 2 x AAA batteries (included)

Battery-life: > 1 year

Reception: Bluetooth

ACCESSORIES

MOST WARMLY RECOMMENDED

Air distribution module

SIMPLY HEAT ROOMS AT THE SAME TIME

Extend your comfort with very little effort. With the door shut, the optional air distribution module conveniently transports part of the heat via a connection pipe into another room.

So in the lounge you can enjoy the uniquely peaceful flame pattern and by activating the air distribution module heat the dining room, office or bedroom at the same time.
