Abb. 8: Zur Position B

1 General

Item	Qty	Article	Article no.
1	1	Upper front welded, guard rail	733367-29
2	1	Guard rail, complete	733368

2 Installing the guard rail

1) Taking off the cooking cover.

Fig. 1: Taking off the cooking cover

Fig. 2: Removing the hotplate

- 2) Remove nuts and washers from the hotplate and take the hotplate off.

Fig. 3: Fitting the new front trim again

- 3) Fit the new front trim to the hybrid stove.

Fig. 4: Removing the front trim

- 4) Remove the front trim from the retaining brackets.
⇒ Keep the retaining brackets, studs and nuts, since these will be required again for the installation.
- 5) Fit the angle brackets to the front trim that was supplied with the railing.

Fig. 5: Removing the front trim

6) Remove front trim.

Fig. 6: Installing the guard rail

7) Mount the railing supports on to the hybrid stove.

8) Fasten the railing supports (1) at the round corners (A) using the corner clamp (2) and screw (3) as illustrated.

9) Mount railing supports on the straight surface (B) as shown.

Fig. 7: At position A

Fig. 8: At position B

1 Généralités

Pos.	Quantité	Article	Article n°
1	1	avant supérieur soudé, main-courante	733367-29
2	1	Garde-corps complet	733368

2 Installer la main-courante

1) Enlever le couvercle de la plaque de cuisson.

Fig. 1: Enlever le couvercle de la plaque de cuisson

Fig. 2: Enlever la plaque de cuisson

- 2) Retirer les écrous et les rondelles de la plaque de cuisson et enlever la plaque de cuisson.

Fig. 3: Installer le nouveau parement

- 3) Installer le nouveau parement sur le poêle mixte.

Fig. 4: Enlever le parement

- 4) Enlever le parement des supports de fixation.
 - ⇒ Conservez les supports de fixation, les vis sans tête et les écrous - ils seront réutilisés pour la pose du nouveau parement.
- 5) Fixer les supports de fixation au parement fourni avec la main-courante.

Fig. 5: Déposer le parement

6) Déposer le parement avant.

Fig. 6: Installer la main-courante
